

An Authentic
Montessori Experience
for Toddlers
(walking to 3 years)

Toddler & Parent Program

Scheduled sessions across the week for Terms 1 - 4
8.45am - 10.30am

The period from birth to 3 years is an amazing period of development. It is when our toddlers grow in independence and start to experience freedom of movement and exercise self-discipline.

Our authentic Montessori environment is tailored to a toddler's needs, supporting them in developing:

- Practical life skills such as food preparation and clean up
- Language acquisition through greetings, singing and story time
- Sensory development through movement to music
- Fine motor control through creative work and outdoor play

Similar to a playgroup, our Toddler & Parent Program allows parents to build connections while also providing a rich experience for your child. Our program encourages independence, a love of learning, positive parenting and stronger child-adult connections.

*The best beginning... teach me how to do it
myself.*
